TAYLOR DUCKS WIN FROM KILLEEN 27-0

Killeen, Nov. 19.—It was too much weight and too much power tonight and the plucky Killeen Kangaroos, playing almost the entire game without their star, Gayle Toliver, were beaten for the district championship by the Taylor Ducks, 27 to 0.

Toliver, who has sparked Killeen's previously unbeaten team up to the final game, limped through the first quarter and part of the second, before his bad knee broke down on him and forced him out for the rest of the game. He carried the ball but twice.

The Ducks scored their first touchdown in the second quarter on a fine 25 yard run by Frankie Struska, who reversed his field and outran the entire Killeen team.

Late in the same period, Struska intercepted a pass in midfield, then shook loose down to the 15 on the next play. He carried it over in three tries.

Midway in the third quarter, Struska drove to the Killeen 30, then hit Edwin Teichelman with a pass and Teichelman ran it over from the eight yard line.

In the last period Teichelman intercepted a Killeen pass and ran it to the 30. Struska passed to Shinn for 15, then drove to the five. Shinn went over from there for the final touchdown.

Killeen made a battle of it in the first part of the game, but the Kangaroo chances went off the field with Toliver.

The Kangaroos were substantially outwitted and they couldn't do a thing with the Taylor line.

One chance to score after a Duck fumble was recovered on the Taylor 15, but that's about as far as it went.

Hickman, end and halfback, Locklear, tackle, Arnold and Earl Baker, backs, stood out for Killeen. Stars in the Taylor's rugged line were Miller, Guzan and C. Jirasek.

Appeal Papers Filed In Dr. Newton Case

The transcript of record of testimony and proceedings in the trial of Dr. W. R. Newton, Jr., at Olton in late August in connection with the shooting of Dr. Roy Hunt near Littlefield in May 1942, has been filed with the Court of Criminal appeals at Austin in an appeal taken from the court at Olton.

Dr. Newton was tried for shooting of Dr. Hunt in May 1942 and although a jury convicted him, the evidence has caused considerable speculation over prejudice which may have existed, and which led to the change of venue in the case of Mrs. Newton on Nov. 15 when Judge Russell on his own motion sent her case to Plainview.

The attorneys for Dr. Newton did not ask for a change of venue when his case was called for trial last August.

The transcript of testimony in the case of Dr. Newton reveals the hitherto unpublished fact 16 witnesses testified that Dr. Newton was some 500 or more miles away from the scene of the shooting when Dr. Hunt was called from Littlefield to a point on the Lubbock road that night in May 1942, where he was twice shot.

Some of the witnesses who testified are patients of Dr. Newton and were treated by the doctor at his clinic as late as 6 p. m. on the evening of May 20, 1942. Dr. Hunt was shot shortly before midnight of May 20, 1942.

The record of evidence also discloses that at the time Dr. Hunt testified he received a telephone call from Lubbock at 8 p. m. which he indicated came from Mrs. Newton, that both Dr. and Mrs. Newton were in Caldwell on their way to Houston.

The distance from Cameron to the point at which Dr. Hunt is alleged to have been shot is some 500 miles. Dr. Newton called his office from Houston early on the morning of November 21, 1942, some 750 or 800 miles away from the point of the shooting which, according to the indictment on which Dr. Newton was convicted, occurred around midnight.

The incredible reconciliation of these facts with the time and distance involved in the shooting has given the case a deepening tinge of mystery, which has been greatly accentuated by the slaying of Dr. Hunt and his wife in their home at Littlefield in late October.

At the time of the slaying of Dr. and Mrs. Hunt, the fact has been

established by officers, that Dr. and Mrs. Newton were in Cameron. In the shooting case in May 1942, likewise both Dr. and Mrs. Newton were some 500 miles or more from the scene of the shooting, according to the testimony of 16 witnesses who testified in his trial at Olton last August.

An appeal was taken in the case based on the absence of two vitally material witnesses and also upon what defense attorneys, Camp & Camp pointed out were some 11 errors of the trial Judge in the admission of testimony. Brief of the attorneys for Dr. Newton has not been filed with the Court of Criminal appeals. The case is expected to be argued sometime after the first of the year.

Both Dr. Newton and Dr. Hunt testified that they were friends and neither could give any reason why the shooting occurred. Dr. Hunt testified he had not seen or heard from Dr. or Mrs. Newton in eight years. Subsequent developments, a long time prior to the trial at Olton last August disclosed that both Dr. Hunt and Dr. Newton sought to see each other but for some unaccountable reason were dissuaded by attorneys.

Salient facts in the testimony in this case, which have been filed in the transcript with the Court of Criminal appeals, have invested it with a great deal of mystery. The tragic death of Dr. and Mrs. Hunt at Littlefield in late October was shocking news to Dr. Newton as well as to the people here. State rangers arrested a paroled convict in connection with investigation of the killings and he

During recent months three robbers now being held in jail at Lubbock, were committed in Lubbock in which the victims were tied up in the same manner in which officers found the bodies of Dr. and Mrs. Hunt in their home at Littlefield. At least two murders in West Texas, one the Frome case in which the mother and daughter were slain, and which occurred years ago, have never been solved.

Lamb county has a population of 18,000 and one third of the people live in Littlefield the largest town in the county. Olton, county seat of Lamb county, is one of few inland capitals in the state. It is situated 25 miles west of Plainview. The town has some 15 more people than Buckholts in Milam county and has only 35 business houses.

CAMERON SHOPS BRIGHT AS XMAS SEASON NEARS

Despite the war and the shortage of Merchandise Cameron shops are bright as Christmas Day approaches and the spirit of shop early seems fairly well appropriated by the people.

Gift goods, hard to obtain at best, run much to the practical. There is a noticeable scarcity of tin or metal toys. Most of the toys are of wood, with the exception of a few held over by Santa from last year.

Dolls predominate the toy departments.

In looking over the stores there is a surprising amount of goods, even candies are becoming more plentiful and what's Christmas without candy? Nuts of all kinds will be scarce and high as will be fruits.

Consumer goods, they say, will be harder to get in the new year, but at the end of the war supply will be accelerated by plans already in effect to begin immediate manufacture.

This year more than any other in the history of the country the necessity to shop early is imperative. Mailings are important to be done early and selection of gifts will depend on the supply and so the importance of early buying is apparent. Last but not least is the clerk problem. With the shortage of help late in the year the clerks are in a difficult position. Shop early.

BEGINNING OF THE NEW YEAR

Various dates were used in different countries, for the beginning of a year, but America followed the English custom of using the date of most early Christian countries—about the beginning of the ecclesiastical year. The Gregorian calendar, established January 1, as the beginning of the year, was adopted by England and her colonies in 1752.

More than 50 pigs and sows will be shown by 4-H boys of the county. Some of the pigs exhibited will have been sold while others will be up for sale during the show. All of them are eligible for registration. Demonstrators in poultry will exhibit several dozens of selected eggs during the show.

The 500 chicks mentioned above were purchased through a special fund created to foster 4-H projects in the county and donated by business men and civic clubs of Milam county. Broom Corn Grown On Sharp Farm

The best specimen of broom corn ever to be put on display here can now be seen at The Herald.

This corn was grown at Sharp on the farm of Fritz Pfannstiel. He planted one tenth of an acre and produced about 40 pounds of dry straw.

The growth is the largest ever seen here. Mr. Pfannstiel believes that broom corn or straw can be grown successfully in this county.

We are here to give the news.

HENRY J. HAILES IS BURIED AT CORINTH

Henry J. Hailes, 84, widely known pioneer and a resident of Milam county for 77 years, died at the Cameron Hospital here on Saturday, November 20, 1943.

Mr. Hailes had lived most of his 84 years in the same community. He was born near Corinth, Miss., in 1859, and came to Texas with his grandfather, Michael Rogers in 1866. The family settled at Petite Springs 3 miles south of Buckholts.

Mr. Hailes, reared by his grand parents, grew up in the Corinth community, a settlement near Bryant Station where the government maintained an Indian reservation under the late Major Bryant, friend of Sam Houston. In those days the city of Buckholts was not in existence and the Santa Fe railway had yet to push west from the terminus at Galveston. Mr. Hailes father was accidentally killed in Mississippi when he was a small boy.

When he became a man he engaged in farming and stock raising and had made his home there for more than a half century. He was first married in 1881. He had been in ill health for some years and was brought to a local hospital for treatment and died at 6:20 p. m. Saturday.

Mr. Hailes while not a member of a church, was a friend and contributor to all faiths, attended all the churches. His life was lived in the atmosphere of a good neighbor and his friends were many.

Surviving are the following children: W. J. Hailes, Cleveland, Ohio; Lettie Hailes of Santa Monica, Calif.; Nora Hailes of Corinth, Mrs. W. P. Moss, Pampa; Henry J. Hailes, Jr., Houston.

Funeral services were held at 4 p. m. Sunday, November 21, 1943, with Rev. C. W. Sanders, pastor First Baptist church in Cameron, conducting the services and the Coleman Funeral Home in Cameron directing arrangements. Interment was made in Corinth Cemetery.

W. D. Bigbee Returns After 16 Months in Porto Rico Base

W. D. Bigbee has returned to Cameron after 16 months with an engineering firm stationed in Porto Rico.

The company has been engaged in construction work there for the United States navy. Mr. Bigbee has twice left the United States for the Central Americas and this time spent 16 months in Porto Rico.

He cannot discuss the construction work he has been doing because of military secrecy. Conditions there are good, he says and the climate very pleasant. Porto Rico is to be our 46th state, when admitted to the union. The population there is mixed.

Mr. Bigbee will spend some time at home before resuming work and plans to leave the United States again if opportunity affords.

John Green, prominent business man of Rosebud, paid a business visit to Cameron last week.

GERMAN CAPITAL IS GIVEN BIGGEST BLAST

The British Air Ministry announced early Friday that a 1000 plane raid was carried out on Berlin Thursday night in the biggest blast of the war against the Reich capital.

The British lost 39 planes while pasting the German capital with 6 million pounds of high explosives.

The attack was described as one or if not the largest raids of the war. The Germans retaliated with a feeble attack on England. Other than the bare announcement of the attack there were no details. The Red armies have cut the German lines and divided Hitler's armies between the Ukraine and White Russia, it was announced in Moscow. The Reds have driven to 90 miles northwest of Kiev.

The Red army is within a few miles of the Polish border and may enter Poland within a week. The Reds are also menacing the Rumanian border.

Small countries like Rumania, Hungary and Bulgaria, will have to suffer the consequences of their alignment with Germany, said the Russian newspaper Pravda. All these countries have declared war on the United States. No Allied statesman has yet found the courage to declare for punishment of any nation.

Allied plans call for punishment of the war guilty. In this way they can get around vengeance by naming only a few, none of which are apt to be brought to justice. The Reds boldly say that those who have committed crimes must pay, meaning whole peoples.

Heavy air attacks over the English Channel gave rise to hopes an invasion may soon come. Only a land invasion can win the war.

The OPA has put a ceiling price on cord wood for Milam County of \$10.50 per cord for lengths of 24 inches and under. For lengths of over 24 inches the ceiling price is \$9.50 per cord. These prices are for fire wood delivered a distance of within the city limits. If the fire wood is hauled and distance, the seller may add to this price not more than the amount he charged for delivering during March 1942.

Mrs. Leo Inge of Rogers was a business visitor in Cameron Thursday.

What You Buy With WAR BONDS

Battle Wagons

When Japan attacked at Pearl Harbor we had 17 battleships in service and 15 building. We were making preparations but the war did not wait. These 32 battle wagons cost American taxpayers three billion dollars for a two ocean navy. The war seemed far away then.

Now fifty million Americans have a personal stake in this war. It has been brought home to them. That's why everyone is increasing purchases of War Bonds.

M. G. Cox Donates Building Here For Salvage of Paper

Here's good news for the Salvage committees and for Boy Scouts who are aiding the war effort.

M. G. Cox has given over the use of his building adjoining his law office, for use in collecting paper for the war effort.

When Mr. Cox read the appeal in The Daily Herald he came forward with the offer and in so doing has set a fine, unselfish and patriotic example. The use of this building will make possible the success of the paper salvage campaign.

Key to the building has been left at the Herald plant for use of scouts and others who want to aid the war effort. Heretofore there has been no building available for storing paper. Now that Mr. Cox has provided one the campaign can proceed rapidly.

FOR GREAT ARMY CAMPS!

Texas Power & Light Company has repeatedly demonstrated its ability to meet emergency demands for electric power to keep the war program moving.

This Company now serves six great Army camps, each of which requires as much electricity as a city of more than 25,000 population. From the very beginning of construction, this Company provided adequate, dependable electric service... and in each case permanent installations for serving the camp were ready before the camp was completed.

Texas Power & Light Company has promptly and efficiently met every demand for electric power for military installations and war industries. These accomplishments were not by accident. They are the result of 31 years of planning and building to meet all needs as they arise... the result of 31 years of operation in the American Way... the system of free enterprise which has made America great and strong and equal to her emergency needs in these days of great crises.

Today we pledge our all to hasten the victorious end of the war and to the preservation of the American Way of Life, which the dictators are seeking to destroy.

NEW BLOWS STRUCK AT JAPS IN GILBERT

New blows were struck at Japan Sunday morning when Marines and army forces under heavy naval and air escort invaded the Gilbert Islands. This is the first attack to be launched in which invasion is the primary object, north of the Equator, since the war began.

The invasion was going well said a statement from Admiral Nimitz in Honolulu. Bridgeheads were established easily and only nominal resistance was encountered on Makin, northernmost of the group. On Tarawa the Japs were encountered in greater force and were resisting vigorously.

The American fleet was challenging the Japs to come out and fight. Admiral Nimitz said the challenge was plain. It's an old American custom and perhaps not understood in Japan.

The Gilbert Islands are north of the Equator and between the Hawaiian group and the inner Pacific strong hold of Japan. These islands along with the Caroline group were mandated to Japan on the guarantee they would not be fortified. The atolls attacked are important bases and the first thrust at Japan north of the Equator.

All was going well and much progress has been made. Makin is 11 miles long and harbors seaplane base. Tarawa has supported the main Japanese air base for the entire group. The Gilberts have an area of 186 square miles and a population of some 30,000.

Thrill Comedy Is Cameron Bill

Hollywood's advance comment on "Dangerous Blondes," the new Columbia mystery-comedy which comes to the Cameron Theatre Tuesday, is that murder and merriment mount so fast, audiences won't know whether to giggle or gasp. Allyn Joslyn is one of the featured players, in a completely sympathetic role, which is something he seldom draws as his lot. Playing opposite him is Evelyn Keyes in her first important comedy role, and it is said that both these players add greatly to this gagspiced detective yarn.

Joslyn plays a typewriter detective, while Miss Keyes is his not so helpful spouse, and the pair become involved in a series of confusing slayings. We're promised glamour aplenty, too. In addition to the blonde leading lady, the cast includes Anita Louise, Ann Savage and Lynn Merrick, all golden-tressed lassies, and all dangerous, as the film's title states.

Entertainment assets are to be found on the male side of the ledger, too. First in the person of veteran

Frank Craven, portraying the wise old Police Inspector, who is driven to distraction by Joslyn's amateur sleuthing. There are also Edmund Lowe, John Hubbard and Michael Duane.

The story is that of a socially prominent matron who is slain in the propitious setting furnished by a commercial photographic studio. Evelyn Keyes is drawn into the case through her girl friend, who works there and she in turn involves her husband. The trial leads through a series of involved sequences, as the inspector and the super-sleuthing duo attempt to track down the guilty party, who adds to the tension with further adventures in homicide!

NATIONAL CHRISTMAS TREE SCENE OF ANNUAL SERVICE

The United States has a national Christmas tree! It is not a spruce, fir or hemlock, but a giant Sequoia which stands more than 207 feet high. The tree is located in General Grant National park, 64 miles east of Fresno, Calif. Devotional and patriotic services held beneath the tree each year since it was selected in 1925 are broadcast over a nationwide network.

CITY NOW SHAMBLES SAY BRITISH PILOTS

Twice bombed in as many days Berlin was a shambles according to returning pilots of British bombers, over the German capital again Tuesday night.

The Air Ministry announced that 20 bombers were lost in the night's operations.

Apparently the British were determined to wipe the German capital off the map. Literally thousands of Germans have been killed in these blasts.

The attack Tuesday night was concentrated on the center of the city where government buildings are located.

The Germans were making no effort to minimize the extent of the attack and the destruction wrought by the bombs.

Weather was clearing in Italy and the Allied armies were making some progress.

Over on the Russian front the Reds were battling desperately to stem the German counter offensive. The Reds have been forced to retreat 3 times west of Kiev. The Nazi army is now within 45 miles of Kiev and may be staging an attack to retake the city.

The United States was getting ready for another attack in the Pacific. The Gilbert Islands are in our hands. There were some 4000 Japs to be killed (not captured) before the fighting will end, but our forces are in sight of the end.

Soldier Writes to Cameron Friends From South Pacific

Pfc. John Wilson Hoffman who recently visited in the home of Mr. and Mrs. W. L. Ingram in Cameron, has written from the South Pacific. Mr. and Mrs. Ingram help entertain soldiers. Pfc. Hoffman was stationed at Camp Hood when he visited in their home.

The letter is as follows:

"I just know you'll be surprised to hear from me, but I had to write you. I received a nice letter from Hubert, and they are getting along fine. The children are in good condition. Carolyn is in school, I'll bet she is a smart little girl and by the time I get home Betty Lou will be a big girl.

"I have something to look forward to. I have been overseas over a year now, but will be willing to stay 10 years in order to rid the earth of a rhodent who is trying to make it impossible for us have peace and security.

"Is Mr. Ingram still farming? Well, we need supplies and its the farmer who can help win this war! What ever happened to Irene and Charles? Does he still work in Hearn? Hubert and Rene are very happy with their new home and when I get home I will be proud of the home I am going to build. As you know a Marine is always busy so I must close. My love and regards."

Miss Betty Lou Gibbs returned home Monday from the Newton Memorial Hospital following a major operation.

MRS. FANNIE ALLEN IS BURIED AT BEN ARNOLD

Mrs. Fannie Allen, 93, passed away at the home her daughter in Corpus Christi Saturday, November 20th.

She is survived by the following children: Mrs. N. O. Kennedy of Corpus Christi, Mrs. A. E. McLendon of Ben Arnold, Mrs. R. E. Wise of Maysfield, Mrs. Susie Sanders of Alabama, W. I. Allen of Texarkana, Ark.; C. L. Allen of Marlin, R. G. Allen of San Antonio.

Mrs. Allen was a life-long member of the Baptist church and a charter member of the Ben Arnold Baptist Church.

Funeral services were held Tuesday morning at 1:30 a. m. at the Baptist church in Ben Arnold. Interment was made in Ben Arnold Cemetery, Rev. C. W. Sanders, Baptist minister of Cameron, officiating.

The body arrived in Cameron at 8:30 p. m. Monday evening over the Southern Pacific lines and was taken to the Green Funeral Home until time for the funeral.

West Side Kid Is Top Dramatic Screen Performance

"The West Side Kids" at the Cameron Wednesday, is one of the most interesting pictures seen here for a long time, and grips the attention right from the first reel.

Old Sam Winston, millionaire, is so disgusted with the way his wife and family are behaving, he is so heartbroken at their lack of affection for him, in spite of the way he has lavished money and love on them, that he hires a young gangster, Johnny April to "bump" him off—painlessly, if possible—in that way hoping to escape his misery.

Johnny, the more he sees of the "upper strata" of society, the more he dislikes them, and during his short association, lets them have his ideas of life right from the shoulder, and to say that his badly phrased but very expressive language causes consternation in the family is putting it very mildly. Each word explodes like a bombshell, and to make matters still more complicated, Johnny falls in love with old Sam's daughter, Gloria.

Eventually, Johnnie takes matters more or less in his own hands, and his methods, while entirely unorthodox, prove most effective, and the picture finishes at a high point of excitement.

THANKSGIVING DAY TO BE OBSERVED HERE

Thanksgiving Day in Cameron will be generally observed.

Preceding the observance a community religious service will be held at First Christian Church where Rev. Isbell, new minister at the Methodist Church, will deliver the address.

Many fans are planning to attend the Texas-A. & M. football game at College Station. Nothing was planned here but theatres will bring good programs. Most business houses will be closed.

Open House was held Monday evening at the home of Judge and Mrs. Jeff T. Kemp for the new pastor of the Methodist church Rev. K. Isbell and wife and daughter, Miss Peggy. A large crowd gathered at the home to welcome the pastor and family to Cameron. A musical program was arranged by Mrs. Winne Wittliff, director of the church choir, and during the evening callers were served a dainty refreshment plate in the dining room.

Mr. and Mrs. Frank Hubnik are the proud parents of a baby girl, born Monday at the Newton Memorial Hospital.

CORP. BILL TRAVERS had tried not to remember that it was the day before Christmas. He'd played a game with himself, pretending not to notice the heightened spirit around camp. But he couldn't keep kidding himself when he saw the giant spruce being set up in front of the barracks. Today was December twenty-four, tomorrow would be Christmas and Norma hadn't written.

They'd first come to grips on their honeymoon. They had planned to take a short motor trip up north but, when they'd reached the point where they were supposed to turn back, Norma had insisted they go to Canada for a few days. Bill had tried to put his foot down, but Norma had argued and cried. When Bill saw her pouting, young face, so pale and set, his determination crumbled like a house of sand. They went to Canada; Bill returned to work five days late and had to look for a new job.

Despite that, he continued to give in, no matter how far off the beam she was. At first he backed down

because he loved her and wanted her to be happy. Later it was because he was afraid that if he didn't yield she never would and their wonderful marriage would end.

Seeing the boys on a ladder, hanging bright red and silver balls on the evergreen boughs, made him remember how much fun his three Christmas eves with Norma had been. The way she always laughed when he insisted on putting up the high ornaments with their rusty ice pick. She'd hold her breath while he teetered on a chair, reaching up to the tip of the tree to put on the silver star. Then he'd hop down.

"See, I made it," he'd say, handing her the old pick. "Now put this carefully away so I can use it next year." And they'd look at each other very seriously, kiss very gently and say very quietly, "Merry Christmas, darling." Yes, those had been the perfect moments.

One of the boys, a friendly chap from the Midwest, passed by and called, "Hi, Bill! All ready for Christmas?"

"Yeah," Bill said drily, "all ready."

All ready and no place to go! But that wasn't quite true. He did have some place to go, a lovely place. His own little home, only a five-hour bus trip from camp. But he couldn't go because of a foolish quarrel they'd had during his last furlough. And because Bill, for once, had refused to give in.

"Well, I'm going now," he said. Then after a moment of tortured silence: "Good-by, Norma. I'll have a few days leave for Christmas. Let me know if you—if you—"

She cut in, her voice sounding high and queer. "Good-by, Bill."

The Midwestern boy came along again.

"Come on, the mail's in. Maybe we've got something." He took Bill's arm, pulled him along.

At the camp post office men were waiting eagerly for their names to be called. Bill was only half listening. He vaguely heard several "Thompsons" and suddenly he jerked his head in surprise, for "Bill Travers" had been called, and a slim package was traveling from hand to hand until it reached him. The neat, printed letters told him it was a gift from Norma.

Bill ran all the way back to his barracks and there, oblivious of the other fellows around him, began to open his present. Under the brown paper, there was white tissue and red ribbon, but no card. Then he burst into laughter. Then tossed the wrappings high up into the air and whooped, "Yippee! She wants me back!"

"What's up?" One of his companions came over grinning.

Bill grabbed his cap. "I've got to get a bus ticket in a hurry. My wife sent me a beautiful gift, and I'm going home for Christmas!"

After his hasty exit his bunkmate peered cautiously into the cardboard case and called to the other fellows. "Come over here and take a look. Travers must be nuts, getting so excited over a present like this. Why, it's nothing but a rusty old ice pick!"

"Dixie" Colorful Minstrel Opens at Cameron Thursday

As the leading minstrel of the American scene, it is certainly appropriate that Big Crosby should be impersonating the original minstrel man, Dan Emmett, in the current Paramount Technicolor musical hit, "Dixie" which is to arrive next Thursday at the Cameron Theatre.

To most devotees of Tin Pan Alley's tunes, the name Dan Emmett may not mean much now. But Daniel Decatur Emmett is the man who wrote "Dixie" and many other hit tune of the period and who, in 1843, founded the Virginia Minstrels, first of a long line of blackface entertainers whose most recent disciples are Cantor and Jolson.

The story of "Dixie" tells how the Virginia Minstrels came about, with Lynne Overman, Eddie Foy, Jr., and Billy de Wolfe, a newcomer to films, rounding out the quartette with Crosby. De Wolfe, incidentally, is a product of Broadway where he wowed habitués of Radio City's Rainbow Room. In addition to being one of the four Minstrels in the picture, he's Crosby's rival for the love of Dorothy Lamour, who is co-starred with Bing. Marjorie Reynolds, Crosby's sweetheart in "Holiday Inn," is in the picture, too.

According to everything one hears about "Dixie," it's a singin', minstrel show with new songs and old ones sung as only Bing Crosby can sing 'em—a rare musical treat and something definitely new in that this is the first time minstrel shows will have been given their screen due in Technicolor.

Here are the songs you'll hear: The new ones are "Sunday, Monday or Always," "If You Please," "She's From Missouri," "A Horse That Knows the Way Back Home," "Kind'a Peculiar Brown" and "Laughing Tony." The oldies are "Dixie," "Swing Low, Sweet Chariot," "Last Rose of Summer," "Old Dan Tucker," "Turkey in the Straw" and "Buffalo Gals," all grand tunes.

Relatives in Cameron and near Cameron, have been informed of the critical illness of Jiles Ethridge, formerly of Cameron, now at Corpus Christi. Mr. Ethridge is in a hospital there, and with nurses both day and night. Mr. Ethridge is well known in Milam county, and formerly lived at Marlow. His sisters and families are with him at Corpus Christi.

March was considered the first month of the year in England until the adoption of the Gregorian calendar in 1752.

Rep. A. N. Green of Cameron spent a few days the past week in Austin on official business.

BRITISH BOMBERS IN DEVASTATING RAID

Berlin was a sea of flame Tuesday as tons of bombs dropped by British bombers last night, wrecked the center of the great city and killed or injured some ten thousand people.

The Germans made no effort to hide the scope of the attack as 1000 British planes moved across the Reich capital above a cloud ceiling and dropped flares to magnify the targets below.

The Williamstrasse was torn to bits as bombs came down from the British planes and many sections of the city were ripped up by the block busters. The city was burning said a Berlin radio cast and a report from Switzerland said the German capital while not demolished has been definitely put in the class of partially ruined Reich cities.

The raid on Berlin was in greater force and more devastating than that visited upon Hamburg by the British. The big bombers flew the round trip of some 1200 miles. The British said they lost upwards of 40 planes.

Many government buildings are said to have been hit and destroyed. The city no doubt will be largely evacuated of its civilians.

Great fires set by the incendiary bombs were said to have set up flames not yet under control and much of the beautiful city is blackened by the smoke and burning debris.

The Marines are landing on others of the Gilbert Islands and all was going well with the invasion.

The Russians have launched a new offensive south of Leningrad in an effort to pin the Germans against the Baltic sea.

London and all the British isles were seething with protest over the release of Sir Oswald Mosley, British Fascist leader who was imprisoned when war came. He wanted to overthrow the British government. His crimes were equivalent to those of Fritz Kuhn of the German-American Bund in the United States. Kuhn is still in prison.

WE MUST SAFEGUARD THE HOME FRONT—THEY ARE FIGHTING TO PRESERVE

This war has touched the life of every American. Practically every family has given a member to the armed forces of our country—many families have several boys in the service . . . Many boys have made the supreme sacrifice.

It is our sacred obligation to safeguard the home front they have left behind. We simply cannot afford to neglect the important things . . . things that will really count after the firing ceases.

Life Insurance is one of those things that will mean so much a little later on. Something that will be harder and harder to get, and cost more as the years go by.

Adequate life insurance is necessary to the homelife and security of tomorrow, something that will help to safeguard the home front and contribute to the safety and security of the home our boys left and expect to come back to.

Have a Coca-Cola = Swell work, Leatherneck

Returning from the South Pacific with a captured Japanese sword, the husky Marine gets a hearty greeting. Have a "Coke", says the proud family circle and it's the kind of celebration he welcomes most. At home or on the fighting fronts Coca-Cola stands for the pause that refreshes,—has become a universal symbol of the American way of life.

TRIPLE-A COMMITTEE ELECTED THURSDAY

Triple-A community committeemen for Milam county will be elected on November 18, to serve from December 1, 1943 through December 1, 1944, according to H. L. Atkinson, County AAA chairman.

Formerly the committeemen were elected in December and began serving on January 1, but since the work in connection with the 1944 food production program should begin in December, the election dates have been changed to allow the committeemen to begin work a month earlier.

In addition to the community committeemen, delegates to a county convention will be elected. The county committee will be selected at this

convention.

"How well the Food Program in this county is run next year depends to a large extent on the farmers who are elected to hold these committeemen jobs," Mr. Atkinson said. He continued: "The Triple-A committee in this county will handle the rationing and allocation of farm machinery, equipment, building supplies, and other agricultural materials and facilities. It will issue farm livestock slaughter permits, handle the farm transportation program, including recommendations for the issuance of certificates for tires, off-highway gasoline and tractor fuel. These are only a few of the many important wartime jobs which the committee will handle in this county."

"Many of the farmers who become Triple-A committeemen must be so at a personal sacrifice. But the soldiers in Italy and in the South Pacific, and on all other battlefronts of the world, are making greater personal sacrifices. Their personal affairs have been pushed into the background by world affairs."

Anyone is eligible to vote in the committeemen elections who is participating in (a) the agricultural conservation programs under the allotment, soil conserving, conservation materials and services, potato or truck crop provisions; (b) Federal Crop Insurance Program.

Cooperation

Complete co-operation is very much in evidence as a WAVE and sailor work together in decorating a Christmas tree. The feminine touch is guaranteed to improve on the appearance of the finished product.

Forgotten Herb

Rosemary with its aromatic lavender flowers, after a Christmas association of many centuries, fell into disuse during Victorian days. Its traditional coupling with the Holy Family was long and imaginative. The swaddling dress of the Infant was hung to dry on the rosemary, imparting a sweet scent to the hitherto odorless flower.

REINDEER GOOD MEAT

Reindeer are hard to get, even in normal times. But it's good to think that they make sizzling, brown roasts.

Reindeer meat has a flavor of its own, but it tastes a lot like beef or veal.

Usually, the round is preferred for roasting or steaks. The lower end of the round, being less tender, can serve as a pot roast. Being thinner than beef, the loin and rib cuts make satisfactory small steaks. These cuts also may be used as chops.

Double loin may be prepared either boned or unboned and then roasted as a saddle. The shoulder also makes a fine roast.

The big problem, of course, is getting the reindeer.

BICKETT-ALLEN

Miss Winifred Lee Bickett became the bride of Sgt. Theodore A. Allen at 4 p. m. Sunday at Presbyterian Manse in Cameron with Rev. John C. Solomon performing the double ring ceremony before the mantel.

The bride wore a gaberdine suit of heavenly blue tones with white crepe blouse made with victorian style collar and cuffs, blue hat and veil. Her accessories were of black. She wore a shoulder corsage of pink sweetheart rosebuds. For something old, the bride wore a gold brooch studded with pearls that belonged to her maternal grandmother the late Mrs. W. P. McDermott.

Mrs. Allen is the daughter of Mrs. A. W. Bickett and the late A. W. Bickett, pioneer settlers of Milam county. She graduated from Yoe High School and later attended business school and was employed in Dallas. For the last few years she has made her home with her mother here.

Sgt. Allen is the son of the late Mr. and Mrs. J. C. Allen of Shreveport, La. He attended school in Shreveport and for the last 2 years has been in the armed forces. He was stationed first at Camp Claiborne, La., and for the last year has been stationed at Camp Hood. He received an honorable discharge from the army and will be employed in government work.

Only the immediate family and a few close friends attended the ceremony.

Their many friends wish for them a long and happy wedded life.

Eclipse Seen For Allied War Effort

An eclipse was apparent Saturday in the Allied War Effort.

Not since the critical days of 1941 and 1942 has activity been at such a low tide. On the whole the war was going slowly ahead with no spectacular fighting or pressing tactics against the enemy.

Bombers over Germany was about all the Allies could boast of. The armies in Italy are bogged down and the Russians have suffered a severe setback near Kiev.

In the South Pacific the Allied forces were handicapped for lack of equipment.

In Washington the politicians were doing everything possible to stop drafting fathers. On the whole the war picture was a state of coma, so frequently seen in this war. The outcome is never in doubt but when the fighting is to begin is still a matter of speculation.

Except for the air corps the forces were only nominally engaged. A winter of such tactics will give Germany much needed time and after all why take advantage of an enemy?

Mrs. Alvin Dusek spent a few days visiting friends in McGregor; returning to her home in Cameron Tuesday.

Retail Price on Apples Fixed by OPA in Milam County

The OPA has slapped a flat retail ceiling price of 11 cents a pound on all kinds of apples in all classes of stores, effective now until Dec. 1.

During December and January, district price officials announced, the ceiling will be 11 1-2 cents a pound.

Price Officer John White advised retailers not to pay more than 8 1-4 cents for apples if they wish to make a profit under the new ceiling.

OPA chose to set the price by weight instead of by the dozen so that size of apples sold would have no effect, he said.

Boxes Scarce, So Wrap Holiday Bundles Carefully

With paper, boxes and twine scarce, Christmas packages will have to be bundled with even more care than formerly.

Even in normal times, thousands of carelessly wrapped packages find their way through the mails, or have to be rebundled in the post offices. Where expensive or delicate articles are sloppily bound, enough damage may be caused to seriously damage the gifts.

In postal procedure in the larger cities, the mailed package is put in a sack. The sack is put on a belt, which carries it to a platform, where it is loaded on a truck. The truck carries it to the railroad station, where it is dropped by chute to a platform. It leaves the platform and is carried to its destination.

In this volume of handling, carelessly wrapped packages easily can be banged about and damaged.

Outdoor Yule Tree

First Made Bow in
Capital in 1923

In 1923 a beautiful evergreen tree, cut in the woods of Vermont, was sent to Washington and set up in Sherman square.

This tree was a gift from Middlebury college to the President of the United States. It was decorated and wired with hundreds of tiny electric lights, and on Christmas Eve President Coolidge switched on the lights of the First National Christmas tree.

The following year beautiful living tree was planted in Sherman plaza behind the White House and a permanent underground electric service installed so that each year the same living tree can be decorated and illuminated.

The national example was quickly followed by many states and communities. Now every year brilliantly illuminated trees grace state capital grounds, city squares and village greens.

The chief charm of Christmas is its simplicity. It is a festival that appeals to everyone because everyone can understand it. A genuine fellowship pervades our common life—a fellowship whose source is our common share in the world's greatest Life which was given to the whole world.—Kimball.

CHRISTIAN SCIENCE SERVICES

It is an annual custom for Thanksgiving Day services to be held by The Mother Church, The First Church of Christ Scientist, in Boston, Massachusetts, and its branches throughout the world. The order of service includes the reading of a Lesson-Sermon on the topic of "Thanksgiving."

Opportunity is also afforded those present to give testimonies of gratitude appropriate to the occasion.

The Golden Text is: "What shall I tender unto the Lord for all his benefits toward me? . . . I will offer to thee the sacrifice of thanksgiving, and will call upon the name of the Lord" (Psalms 116:12, 17).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He that hath my commandments, and keepeth them, he it is that loveth me: and he that loveth me shall be loved of my Father, and I will love him, and will manifest myself to him" (John 14:21).

OLD TIME NEW YEAR SERIOUS

Old time New England was serious on New Year's, as witness the title of a book published there in the year of 1702 by one Richard Standfast: "A New Year's Gift for Fainting Souls, or, a little handful of cordial comforts scattered through several answers to 16 questions and objections: As also doubting Christians invited to Christ."

Where our Food is going . . .

Your Government says that thirteen per cent of our total supply goes to our armed forces at home and abroad, ten per cent to our Allies and liberated peoples, and two per cent to our territories (Puerto Rico, Hawaii, Alaska, etc.).

The rest of the supply—the bulk—three-fourths of the total—stays home to feed the civilian population. This three-fourths, however, is about equivalent to the average amount of food produced in this country in the years 1935 to 1939. Not all of this supply is made up of "favorite" foods—but it is the type of food to give the citizen a healthful, balanced diet.

One-fifth of all Food produced is wasted

There's Plenty YOU can do to reduce this WASTE

Like all other managers' jobs, your job as general manager of the household is complicated by wartime conditions. The biggest part of your job is making the tremendous amount of food our farmers are producing go just as far as it will. So plan carefully your meals and shopping. Shop the first of the week and early in the day. Avoid careless handling of fresh foods, as this is a big cause of food waste. Department of Agriculture estimates that one fresh tomato out of every seven has to be discarded because of bruising by customers. If one-third of what is wasted can be saved it will add about eight per cent to our food supply.

CUT FOOD WASTE

Plan Right

1. Know the seven basic food groups and plan your meals from them.
2. Plan by the week so that two or more protein foods will not be included in the same meal.
3. Plan a vegetable plate or a nourishing soup as the main dish for several meals during the week.
4. Use fresh foods in season. Cook most vegetables in a small amount of water; using

Cook Right

only about one-half inch in a covered utensil.

5. Cut down your grocer's waste. Don't pinch fruits. Don't handle vegetables.
6. Serve smaller portions with the provision for seconds. Establish a rule for eating everything served.
7. Don't buy rationed foods for the sake of using stamps. Don't give away or trade stamps.

Eat Right

Protect Your Subscription

With the prospect of further drastic reductions in the supply of news print on which your Herald is issued each week, it is important that you not let your subscription lapse.

Many publications are declining under necessity to take on new subscriptions, especially among the magazines. The Herald is still taking new readers, but may be forced to abandon any further expansion of the reader list, if ration conditions dictate.

The Herald reader list now is far above advertising rate levels.

Old subscribers should pay promptly.
